Assignment 1: First Communication

(7 points of 70)

Deadline: Tuesday, October 14th 10pm (Zurich time)
Commit the files at
http://svn.origo.ethz.ch/wsvn/dose2008/group_n
where n is your group number

Origo Project and Teams

The Origo project http://dose2008.origo.ethz.ch will be used as software development and collaboration platform. Students have to create an Origo id and send it by e-mail to Martin Nordio by Thursday October 9th. Your Origo id will be added to the project and students will have access to Wikis, SVN, forums, etc.

If you have not created your team, do it and e-mail the following information to Martin Nordio by Thursday October 9th:

a. Name

b. E-mail

c. Skype id (at least one member of the team should have an skype user)

Tasks

The groups have been published at http://dose2008.origo.ethz.ch. Each team will have to define a contact person. The task in this assignment is to have the first meeting with the whole group. The contact person at ETH needs to contact all the members of the group and collect/ask the following information/questions:
1. Name, e-mail – skype id – origo id

2. Do you want to participate in the SCORE competition?

3. Eiffel Experience: (none – basic – good - excellent)

4. Do you have EiffelStudio installed? – If not, ask them to install it

5. Do you have Traffic installed? – If not, ask them to install it

6. Experience in writing requirement documents: (none- basic – good – excellent )

7. Work Experience

8. Biggest project: (line of code)

9. Knowledge in OO languages (e.g. Java, C#)

10. Other programming languages

11. Languages he/she speak

12. Ask him/her to send you a picture

13. **Time Slot for Meetings:** We want to have meetings with at least the contact person of each team. Ideally, everybody should attend the meeting. *Find a time slot* where most of the group can be on-line. The meeting will be 30 minutes, and everybody should reserve this weekly time slot (although we might not meet weekly). **Restriction:** *Wednesday is impossible and Thursday morning too. If possible, propose several options.*

14. **Define which team is responsible for each cluster (SYST, GEO, PLAN)**

15. Any other information you think it is important to know.

Once you have all the information, prepare a presentation (see an example at our course web page). Commit the presentation at [http://svn.origo.ethz.ch/wsvn/dose2008/group_n where n is your group number](http://svn.origo.ethz.ch/wsvn/dose2008/group_n).
Presentation

On Thursday October 16\textsuperscript{th} at 10:15-11hs you will present your team. If you cannot attend the exercise session (only for ETH students) be sure you commit the presentation on time.
