Exercises

- **Weekly assignments**

The assignments will be distributed **digitally on the course homepage**. You have one week to solve the assignment and to hand in your solution to your assistant. Your assistant will present a master solution during the exercise session.
- **2 mock exams (instead of weekly exercise assignment)**

Mock exams are probational mini-exams. They take place during the exercise session and are announced early enough so that you can prepare for it. The mock exams should help you assess your knowledge and progress.

“Testat” regulations

You have to get the testat to be admitted to the final exam. To get the testat you need to

1. have $n - 1$ out of n weekly assignments accepted
2. have to take 2 mock exams

In addition, you have to fill in questionnaires . There will be a questionnaire for almost every assignment asking for your feedback on that particular assignment. You will be notified by email up-front.
