Introduction to Programming, WS 2003/04

Information Sheet for Students

Schedule

- **Lectures:**
  - Monday, 13:00 – 15:00, HG E7
  - Tuesday, 10:00 – 12:00, HG E7

- **Exercises:**
  - Monday, 15:00 – 16:00, various rooms (*see Teaching staff*)
  - Tuesday, 13:00 – 15:00, various rooms (*see Teaching staff*)
  - or
  - Monday, 15:00 – 16:00, for one group (*see Teaching staff*)
  - Wednesday, 14:00 – 16:00, for one group (*see Teaching staff*)
  - or
  - Tuesday, 15:00 – 18:00, for two groups (*see Teaching staff*)

Information sources

- The assistants will be happy to answer your questions concerning the lectures and the exercises. Take advantage of their presence in the exercise room!

- You can find all the important information on the course homepage: http://se.inf.ethz.ch/teaching/ws2003/37-001/

- Please use the on-line Forum to ask any questions and discuss any issues concerning the course: http://se.inf.ethz.ch/teaching/ws2003/37-001/forum/

- Mailing list (chicks@se.inf.ethz.ch) for girls only. Subscribe at http://se.inf.ethz.ch/mailman/listinfo/chicks

- Office hours: Friday, 14:00 – 16:00, RZ J22

Computer rooms

Several computer rooms will be available for your use during the semester. The software needed for the course has been installed on the computers in the following rooms:

- **Windows:** IFW C31, HG E23, HG E26-3, HG E27
- **Linux:** IFW C31, HG D13

If you want to use your own laptop:

Exercises

- 7 (weekly) exercises
  The exercises will be handed out as printouts in the lecture. You have one week to solve the exercises and have to hand in your solution in the following week. Your assistant will correct it and return it to you one week later. Your assistant will present a master solution and give you feedback. You also have the opportunity to ask questions.

- 2 classroom exercises (instead of weekly exercise sheet)
  These exercises will be announced one week ahead. There will be exercises and questions you have to solve within a given time in the classroom. We expect you to prepare for these “tests” as they will help you assess your progress.

- 1 project exercise
  This will be a larger exercise solved in small groups and will allow you to experience “real” software development. The project will stretch over 3 weeks. At the end, you’ll make a short presentation. More details will be announced.

“Testat” regulations

- 6 weekly exercises
- 1 classroom exercise
- 1 project exercise

In order to have an exercise accepted, you must show an effort to solve the tasks. Additionally, a questionnaire about the difficulty level needs to be filled out.
